General Code

[HISTORY: Adopted by the Town Board of the Town of Gardiner 3-20-1984 by L.L. No. 2-1984 as Ch. 6 of the 1984 Code. Amendments noted where applicable.]

§ 16-1. Legislative intent.

The preservation and improvement of the quality of the natural and man-made environment within the Town of Gardiner, in the face of population growth, urbanization, and technologic change with their accompanying demands on natural resources, are found to be of increasing and vital importance to the health, welfare, and economic well-being of present and future inhabitants and require forthright action by the governing body of the Town of Gardiner. It is recognized that the biologic integrity of the natural environment on which man is dependent for survival and the natural and functional beauty of our surroundings which condition the quality of our life experience cannot be protected

without the full cooperation and participation of all the people of the Town working in partnership with local and state officials and with various public and private institutions, agencies, and organizations. Establishment of a commission for conservation of the environment is a necessary step in fostering unified action on environmental problems.
