Resource Type: Regulations
State: North Carolina
Jurisdiction Type: Municipality
Municipality: City of Rocky Mount
Year: 2005
Community Type - applicable to: Urban; Suburban
Title: City of Rocky Mount, North Carolina
Land Development Code §
704(C)(9) – Solar access.
Document Last Updated in Database: June 12, 2018

Abstract

The City of Rocky Mount, North Carolina’s landscaping regulations apply to all proposed development for which a site plan is required; however, if existing development on an adjoining lot is designed for solar access, the regulations authorize site plan applicants to substitute small trees for large trees where large trees would destroy solar access.

Resource

Appendix A – Land Development Code
Chapter 7 – General Development Standards
Sec. 704 – Landscaping and buffering
C. Landscaping procedures and general requirements.
9. Solar access. If existing development on an adjoining lot is designed for solar access, small trees shall be substituted for large trees where large trees would destroy solar access.
