Title:	Kansas City Disposal of Tires & Batteries Ordinance
Document Last Updated in Database:	April 13, 2017

Abstract

This ordinance includes specific regulations for disposal of tires and batteries.

Resource

Sec. 62-185. Prohibited activities.

(a) It shall be unlawful for any person to dispose of waste tires in the city except as provided in this article. Waste tires shall be collected only at a waste tire site, waste tire processing facility, or a waste tire collection center.

(b) A person shall not maintain a waste tire site unless the site is permitted by the state department of natural resources for the proper and temporary storage of waste tires or the site is an integral part of the person's permitted waste tire processing facility or the site is exempt from the state's permit requirements.

(c) Waste tires may not be deposited in a landfill as a means of ultimate disposal unless the tires have been cut, chipped or shredded.

Sec. 62-153. Disposal of used batteries.

(a) Recycling required. No person may discard or otherwise dispose of a used lead-acid battery in a manner other than by recycling in accordance with this section.

(1) Disposal generally. A person other than a person described in subsection (a)(2), (3) or (4) of this section shall discard or otherwise dispose of a used lead-acid battery only by delivery to one of the following:

a. A person who sells lead-acid batteries at retail or wholesale.

- b. A secondary lead smelter authorized by the director.
- c. A collection or recycling facility authorized by the director.

(2) Disposal by retailers. A person who sells lead-acid batteries at retail shall discard or otherwise dispose of used lead-acid batteries only by delivery to one of the following:

- a. A person who sells lead-acid batteries at wholesale.
- b. A secondary lead smelter authorized by the director.
- c. A battery manufacturer.
- d. A collection or recycling facility authorized by the director.

(3) Disposal by wholesalers. A person who sells lead-acid batteries at wholesale shall discard or otherwise dispose of used lead-acid batteries only by delivery to one of the following:

- a. A secondary lead smelter authorized by the director.
- b. A battery manufacturer.
- c. A collection or recycling facility authorized by the director.

(4) Disposal by manufacturers. A person who manufactures lead-acid batteries shall discard or otherwise dispose of used lead-acid batteries only by delivery to one of the following:

- a. A secondary lead smelter authorized by the director.
- b. A collection or recycling facility authorized by the director.

(b) Violations. A person who violates any provision of this section shall be guilty of an ordinance violation. For purposes of this section, each instance of discarding or disposal of a battery other than in accordance with this section shall be considered a separate violation.

(Code of Gen. Ords. 1967, § 16.77; Ord. No. 64918, 12-14-89)
